TCWN’s Bringing Tap Back program has provided tens of thousands of Tennesseans with safe, clean drinking water and the knowledge to make better beverage choices.

**SUGAR**
our kids are consuming more and more sugar, which means that

**OBESITY**
our kids are more overweight than ever, and that means

**DIABETES**
our kids are far more likely to develop Type 2 Diabetes

**BRINGING TAP BACK** encourages

Clean Water Consumption

by increasing access to clean, filtered water through water bottle refill stations and bubblers

educating Tennesseans about the importance of clean water

TCWN works with your organization to provide age-appropriate educational materials, ideas for fun student campaigns and “clean water” pledges, promotional graphics for printing, sources for safe reusable water bottles, and assistance with selecting and purchasing the correct water bottle refill station for your needs.

A limited amount of funds are available for eligible schools or other organizations. TCWN also has great fundraising ideas to share with you!

For more information, contact info@tcwn.org or visit bringingtapback.org.

healthy water, healthy communities.
YOU WANT TO BRING TAP BACK?

Fantastic! TCWN is proud to partner with Elkay Manufacturing and the Ben O’Neal Company to Bring Tap Back to your organization.

WHAT YOU GET:

1. Water Bottle Refill Station, Bubbler, & Starter Filter
2. BTB Toolkit & TapDrive
3. "Water is Great" Poster

$1415

The BTB Toolkit is a comprehensive guide to running a 30-day BTB Campaign. It includes templates, lesson plans, infographics, handouts, and step-by-step instructions to execute a successful campaign.

The BTB TapDrive is a USB drive containing a digital version of every page of the Toolkit, allowing easy modifications to forms, lesson plans, templates, etc. It also includes 50+ infographics, pictures, and logos.

Order forms are available at BringingTapBack.org. For more details, email info@tcwn.org.

By participating in Bringing Tap Back, you consent to the following:

I agree to contact TCWN before duplicating or sharing BTB Toolkit contents.
I agree to promote the educational component of Bringing Tap Back through the use of provided materials.
I understand the importance of filtration to safe drinking water and commit to replacing cartridges as needed.
I understand that the unit(s) must be installed by an employed maintenance worker or licensed plumber for the full Elkay warranty to be valid.

For more information, contact info@tcwn.org or visit bringingtapback.org.

- All prices include shipping.
- Installation required.
- School or organization must provide valid certificate of tax exemption.
- Additional water stations shipped to the same school do not require the purchase of a Toolkit, so deduct $195 per station.
- Four or more water stations on one order to one address qualify for a shipping discount, so deduct $120 per station.
- Multiple water station/shipping discounts can be combined. Ask for an estimate.
- TCWN is happy to provide a purchase estimate via email. Send your request to info@tcwn.org.

Please acknowledge the following statements by initialing on the line to the left.

**POWER:** Most indoor models are 115V/60Hz, but are also available in 220V/60Hz. Contact us for details.

**LEAD TIMES:** You will receive your fountain within 90 days of placing your order (much sooner for filters only). Please contact TCWN for anticipated delivery date.

**WARRANTY:** Refill stations must be installed by a licensed plumber or employed maintenance worker. If not, the Elkay warranty may be voided.

**FILTRATION:** In keeping with the overall clean water mission of TCWN, customer - in order to receive this discounted pricing - agrees to replace filters on time for at least 5 years.

**SIGNED:** (If signing electronically, just type name on each line.)
